Lushy

INVESTMENT PROPOSAL · SEED ROUND

March 2026
Gaborone, Botswana

The local services marketplace Botswana has been waiting for.

Lushy connects customers with trusted local professionals — cleaners, plumbers, beauticians, and more — through a beautifully designed mobile app built entirely in Botswana.

THE OPPORTUNITY

2.6M+
People in Botswana

500K+
Informal service workers

Direct local competitors

Finding a reliable plumber, cleaner, or hairdresser in Botswana still relies entirely on word of mouth. There is no platform, no ratings system, and no price transparency. Lushy solves this — and we are already built.

HOW IT WORKS

1. **Discover** — Customers browse local professionals by category and location on a visual, Pinterest-style feed.
2. **Quote** — Professionals send transparent, itemised quotes before any commitment.
3. **Book & Pay** — Customers confirm and pay securely through the app via DPO Group.
4. **Complete** — Jobs are marked done via a customer OTP code — protecting both parties.
